Evaluation

The Weston Board of Education believes that an effective system of evaluation is essential to the creation of educational excellence. Therefore, the purpose of the evaluation is the continuous development of the instructional skills and practices of teachers as well as determining the employment status of teachers.

The Board delegates to the Superintendent of Schools, who works with the professional staff, the responsibility of developing, organizing, and conducting a system-wide program of evaluation of teachers. The Superintendent shall be accountable to the Board for proper implementation of the program in accordance with state statutes and in accordance with Weston expectations for teacher performance.

Regulation approved: July 16, 1990
