POLICY REGARDING EMPLOYEE SAFETY

The Weston Public School System is committed to maintaining a safe and healthy working environment for all staff, students and visitors. It is the intent of this school system to comply with all local, state and federal regulations governing workplace safety and to develop a safety program that conforms to the best management practices available to minimize hazards and reduce the likelihood of injury.

The Weston Public School System understands that to have an effective safety program, safety must be integrated into the daily activities of every employee. Safety is the responsibility of every employee and it is the practice of this school system to hold all employees accountable for work-place behaviors that affect their own personal safety and health as well as the safety of co-workers.

To achieve this goal, the Weston Public School Systems has made a commitment to allocate necessary manpower and resources to develop and implement the elements outlined in this document in a timely and conscientious fashion. To facilitate this process, the Weston Public School System has a Safety Committee, a Risk Control Coordinator, and each department has appointed a Safety Representative. Full management support will be given to the risk control liaisons to ensure that personnel and resources are made available to this process.

Policy Adopted: June 16, 2008
