

InstructionOrganizations/Associations

Student organizations contributing to learning shall be encouraged. Such organizations shall operate within the framework of the law, Board policy, administrative rules, and the parameters of the learning program. When such organizations are truly contributive, their establishment and operation shall be facilitated in reasonable ways by district staff and through utilization of district resources.

The Superintendent shall develop general guidelines for student organizations. Among other provisions, such guidelines shall require the assignment of at least one faculty advisor to each student organization and the approval by the Board of Education of any student organization.

This policy applies to in-school organizations only. It is not intended to restrict the organization of students into groups which function apart from the school.

Non-School Organizations

All organizations not specifically authorized and organized by the school are considered to be non-school organizations and beyond the jurisdiction and responsibility of school authorities.

However, should these groups conduct activities on school property, at school-sponsored activities or as a carry-over into the school day or reflect on the reputation of the school, the Superintendent is authorized to develop procedures concerning disciplinary action to be taken.

Activities which are contrary to the best interests of the school and reflect on the reputation of the school are forbidden, including

1. initiation and hazing on the school grounds or at school-sponsored events.
2. indulging in group functions that violate federal, state or town laws.
