How to clear cache and cookies in Google Chrome

- Open Google Chrome
- At the top right, click the three dots 
- Hover over "More Tools"
 - Select clear browsing data
 - Select Clear Data
- Then close and re-open Google Chrome

After completing these steps, if the application is still not working correctly then:

- Open Chrome Preferences
- Click on Settings
 - Select show advanced settings
 - Under Privacy, click on content settings
 - Select Cookies
 - Make sure "Block third-party cookies and site data" is not checked
